### ABOUT ME

A positive, innovative, results-driven Junior Software Developer with 3 years of experience who takes pride in effectively combining workplace objectives with personal and professional goals. Proficient in solving technical problems with practical solutions using various software architectures and database designs. Also, have skills in managing proper software documentation and completing tasks following various software development methodologies. As a person, I am an optimist, and I always strive continually for excellence. I never compromise with the tasks that are assigned to me.

### WORK EXPERIENCE

**01/05/2023 – 10/08/2024** Bagerhat, Bangladesh

#### Software Engineer Hi-Tech Marine and Industrial Engineering Limited

As a dedicated Software Developer at Hi-Tech, I have consistently demonstrated my expertise in designing, developing, and maintaining high-quality web application systems. My role involves end-to-end development, from ideation to implementation, ensuring scalable and efficient solutions that meet the evolving needs of our clients.

- Conceptualized, designed, and developed robust web application systems to meet diverse business needs.
- Designed prototypes and successfully pitched original ideas for innovative web application systems to stakeholders.
- Developed several management systems utilizing the Laravel framework, delivering scalable and maintainable solutions.
- Built entire code bases from scratch, ensuring high-quality, efficient, and secure coding practices.
- Created comprehensive API documentation to support future implementation and integration efforts.

**01/08/2022 – 31/03/2023** Kuala Lumpur, Malaysia

#### Product Development Intern Flowy Sdn Bhd

For my industrial training, which was needed to finish my bachelor's degree, I worked with FlowyTeam, a productivity platform. My main job was to find and fix bugs in the system. I would run the system locally, find bugs, and then confirm fixes with the team in daily meetings before making changes.

At first, I was nervous because the system and its database were complex, but I quickly got the hang of it. I fixed many bugs and improved my programming skills along the way.

**01/03/2021 – 29/07/2022** Kuala Lumpur, Malaysia

#### Junior Software Developer Traitquest Innovation Sdn. Bhd

During my university years, I secured my first job as a software developer at an IT company. Despite balancing my final year projects and studies, I worked remotely due to the COVID-19 pandemic. My key responsibilities included:

- Designing and pitching the prototype for a web application system, based on an original idea.
- Developing several management systems using the Laravel framework, building the entire codebase from scratch.
- Creating API documentation to support future implementations and ensure smooth integration.

## EDUCATION AND TRAINING

**03/03/2024 – CURRENT** Liepāja , Latvia

**Professional Master Degree in Information Technology Project Manager qualification** Liepāja University

Website <https://www.rtu.lv/en/liepaja> | Level in EQF EQF level 7

**17/09/2017 – 29/03/2023** Johor , Malaysia

**Bachelor of Computer Science (Software Engineering) with Honors** Universiti Teknologi Malaysia

Website <https://www.utm.my/> | Level in EQF EQF level 6

**05/08/2014 – 17/08/2016** Dhaka , Bangladesh

**Higher Secondary Certificate** Residential Laboratory College

Website <https://www.facebook.com/RLCDhaka/> | Level in EQF EQF level 5

**01/01/2012 – 17/07/2014** Bagerhat , Bangladesh

**Secondary School Certificate** Rayenda Pilot High School

Website <https://www.facebook.com/rgphs1947/> | Level in EQF EQF level 4

## LANGUAGE SKILLS

**MOTHER TONGUE(S):** Bengali

**Other language(s):**

English

Listening C1

Spoken production C1

Reading C1

Spoken interaction C1

Writing C1

---

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*
